

Cutout Photo Specifications

Please Note: Many small sized/low quality internet photos and/or Facebook photos are not high enough resolution to create a good looking lifesize standup over 20". Please be sure to send us the highest quality photo that you have.

You can quickly and easily send us your digital photo. After ordering you will transfer your file to us so that we can start creating your standup today. Please use our ordering portal at urbanimaging.com/jll.

Please follow the guidelines below when selecting your photo. Digital Cameras must be at least 4 mega pixels & the resolution MUST be set to high or fine. Some cameras just list numbers - choose the largest one. This will give you less pictures on your memory card, but better pictures.

Photo Guidelines

- Take photos close up (tight shot).
- Do not cut off the head and shoulders of the subject
- Light backgrounds are better.
- Make sure your images are sharp, focused, and clear
- If sending a .jpg file, size should be at least 1MB or larger, and at least 150 dpi. (300 dpi preferred)
- We accept .jpg, .pdf, .eps (photoshop), and .png

Do NOT submit

- Photos of you with other people
- Photo from a far distance
- Images that are grainy
- Photos that are not clear or blurry

Important - You get what you give us! It all starts with the photo.
